Enhanced Business-to-Business Campaign Database

The NFocus Enhanced U.S. Business list is a comprehensive database that includes top level executive contacts.

This list is widely regarded as being of the highest quality available for Business-to-Business advertising. The outstanding quality of this list allows for peace of mind B2B campaigns, big or small.

Thousands of sources along with a proprietary compiling method allows for a comprehensive coverage that is Triple Verified for an accurate database.

Data sources include but are not limited to: Yellow Page Directories, Business White Page Directories, Government New Business Filings, Corporate Websites and Directories, SEC Annual Reports and Events, and many other public sources.

Creating a comprehensive targeted Direct Mail or Email list has never been more complete with nearly 15 million US businesses. This unique business file includes key information such as top C-level executives, emails, number of employees, URL as well as the core information such as telephone numbers etc.
